EDUCATION

Federal University of Petroleum Resources Effurun

Bachelor of Science in Computer Science (Graduated August 2026)

- Focus on algorithms, data structures, operating systems, and software engineering

ALX Software Engineering Program | [Website](#)

Certificate in Software Engineering (Graduated November 2023) | [Certificate](#)

- Full-stack development, DevOps, APIs, and debugging skills

EXPERIENCE

Backend Developer — Health Master | [Website](#)

Designed and developed the backend for the Doctors Portal using Next.js and Appwrite, implementing secure authentication, dynamic data storage, and RESTful API endpoints. Optimized the backend for scalability and responsiveness while collaborating with the front-end team to ensure seamless integration and a user-friendly experience.

Freelance Software Developer | Remote

Collaborated with international clients to transform business ideas and requirements into functional, scalable web applications. Worked closely with clients and development teams to understand requirements, implement solutions, and deliver projects using modern web technologies.

PROJECTS

ShopSphere | [Website](#) | [GitHub](#)

- Built a multi-tenant SaaS e-commerce platform enabling merchants to create branded storefronts, manage products and orders, and accept payments through Stripe and Pystack.
- Implemented subdomain-based tenant routing, secure authentication, inventory management, analytics, automated payouts, and Cloudflare R2 media storage using Next.js, TypeScript, PostgreSQL, and Prisma.

NovaCare | [Website](#) | [GitHub](#)

- Developed a hospital management system connecting doctors, pharmacists, laboratory teams, receptionists, and administrators through a unified workflow.
- Built a TypeScript/Next.js monorepo with PostgreSQL, Prisma, JWT authentication, shared validation, and RESTful backend services.

Jobpilot | [Website](#) | [GitHub](#)

- Built a job marketplace using Next.js, TypeScript, Firebase, and MongoDB, enabling users to discover and apply for jobs through a responsive web platform.

SKILLS

- **Languages:** JavaScript, TypeScript, Python, C, SQL, Shell Scripting, HTML, CSS
- **Frameworks & Libraries:** React.js, Next.js, Node.js, Express.js, Flask
- **Databases & Data:** PostgreSQL, MySQL, MongoDB, Redis, Firebase
- **Backend & APIs:** RESTful APIs, WebSockets, Authentication & Authorization, API Integration
- **Cloud, DevOps & Tools:** Git, GitHub, Docker, Linux, Nginx, CI/CD, Vercel, AWS
- **Services & Platforms:** Supabase, Appwrite
